

SCHOOL OF  
MEDICINE

# Core Directors Meeting

September 2023

# Agenda

- Core infrastructure at UNC - organization chart
- Fixed-term faculty promotion advocacy
- Data Management and Sharing Plans
- Rigor and Reproducibility
- MAD SSCi wrap up
- Planning for core instrumentation needs
- Upcoming ORT events
- Acknowledgment tracking
- OSP metrics
- iLab website updates and asset tracking updates
- Financial reporting
- Resources available for equipment grants (Nate Blouin)
- Working with external customers (Kickstarter)

# Core Infrastructure at UNC

## Research Core Development Team (OSP/VCR)

BEN WRIGHT – Director RCD  
MEGHAN KRAFT – Interim  
Director Research Core Strategy  
MICHAEL AKRIDGE – Financial  
Analyst

## OSP Cost Analysis & Compliance

BRIAN BERTLSHOFER – Director  
JR PIKE – Manager  
LATOIA SMITH – Lead  
DAVID COYLE – Analyst  
VALESHIA DOBSON - Analyst

## Office of Research Technologies (SOM)

CHRIS GREGORY – Director  
KARA CLISSOLD – Assoc.  
Director

## Lineberger Comprehensive Cancer Center (SOM)

HOLLY DRESSMAN – Asst.  
Dir. of Shared Resources  
and Operations

## UNC College of Arts and Sciences

JIM CAHOON – Exec. Dir. of  
Research Core Facilities

# Core Infrastructure at UNC

## Research Core Development Team (OSP/VCR)

- Partner with departments, schools, and existing recharge centers to develop a campus-wide Core strategy
- Survey equipment and resources to establish a central asset repository
- Consult on core management, business process improvement and marketing
- Provide options for treatment of volatile rates and assist with more frequent rate reviews
- Manage iLab adoption and training
- Serve as *ad hoc* members of CFAC

## OSP Cost Analysis & Compliance Team

- Initiate rate reviews on biannual basis
- Review operating plans and rate development worksheets
- Approve rates and provide MOAs
- Ensure compliance to financial policies for recharge centers

## Office of Research Technologies (SOM)

- Supports cores with all operational processes, from starting a new core to rate reviews and developing operating plans
- The Core Facility Advocacy Committee (CFAC) provides funding
- Advocates within the School of Medicine with a commitment to all cores within the UNC Chapel Hill ecosystem
- Educates core personnel on areas of interest, including providing ABRF membership and supporting grant writing, career development and sustainability initiatives

## Lineberger Comprehensive Cancer Center (SOM) Asst. Director

- Partner with existing recharge centers in LCCC to support operations, finance, funding requests, etc.
- Consult on core management and business process improvement
- Assist with solutions for marketing core facility services
- Serve as *ad hoc* member of CFAC

## UNC College of Arts and Sciences Exec. Director

- Partner with existing recharge centers in CAS to support operations, finance, funding requests, etc.
- Consult on core management and business process improvement
- Assist with solutions for marketing core facility services
- Serve as liaison with Research Core Development Team (OSP/VCR) and ORT (SOM)
- Serve as *ad hoc* member of CFAC

# Fixed-Term Faculty Promotion for Core Directors

- Core directors who are fixed-term faculty are eligible for promotion in rank. Departments must initiate the promotion process (chair, ACA, HR) but you may need to advocate for yourself
- Administration, Clinical, Community Professional Service, Education and Research
- “Meet the mark” criteria are included in the SOM APT Guidelines (see next slide). While other schools may not have these criteria, the documentation required is the same
- Documentation required: CV in SOM format; reference letters from outside of home department (2 required, no more than 4); evidence of teaching/mentoring/training (with student surveys/letters and a peer evaluation letter); chair’s letter recommending the promotion, chair’s checklist
- Committee approvals required after submission by HR – Fixed-Term Promotions Committee and Dean’s Advisory Committee (both meet monthly)
- Timeframe for completion of process - ~ 6 months. Collecting reference letters is the bottleneck

# “Meet the Mark” Criteria for Research

## Assistant to Associate Professor

### (Research Track)

Documentation of substantial research activity and productivity

Excellent local reputation as a researcher documented in letters of reference external to the department

Scholarship – minimum of five examples of scholarship (progressive and enduring)

One of the following demonstrating progressive achievement

-Successful operation of a core facility

-External funding

-Key role in facilitating research activity for dept or center

## Associate to Full Professor

### (Research Track)

Documentation of substantial research activity and productivity

Excellent regional or truly exceptional local reputation as a researcher documented in letters of reference external to the department

Scholarship – minimum of five examples of scholarship (progressive and enduring)

One of the following demonstrating progressive achievement

-Successful operation of a core facility

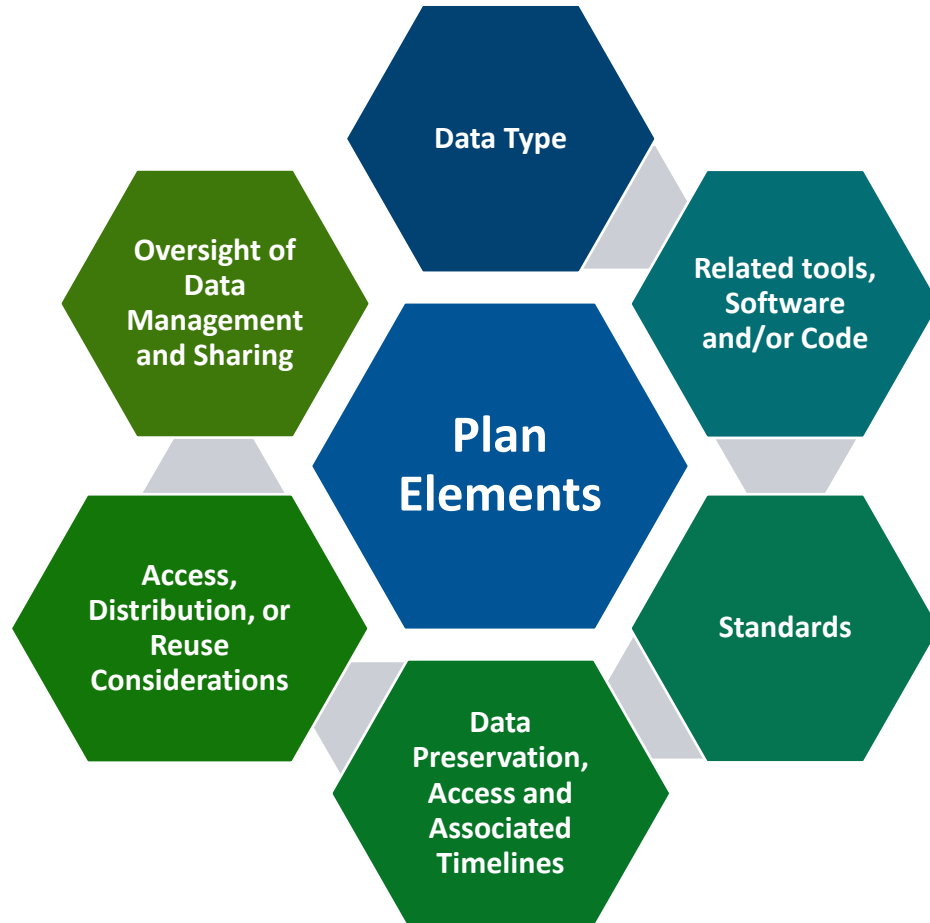

-External funding

-Key role in facilitating research activity for dept or center

# Core Survey: Data Management and Sharing Plans

- [NOT-OD-21-013](#): Final NIH Policy for Data Management & Sharing
- Went into effect on January 25, 2023
- Applies to all research, funded or conducted in whole or in part by NIH, that results in the generation of scientific data.
- "Scientific data" is defined as:
  - “data commonly accepted in the scientific community as of sufficient quality to validate and replicate research findings, regardless of whether the data are used to support scholarly publications.”
  - **Includes** any data needed to validate and replicate research findings
  - **Excludes** lab notebooks, preliminary analyses, completed case report forms, drafts of scientific papers, plans for future research, peer reviews, communications with colleagues, or physical objects such as lab specimens
- If your core will be generating scientific data for a grant, you should build a DMSP to be included in the application

# Six Elements of a DMS Plan

- **Data type**
  - Identifying data to be preserved and shared
- **Related tools, software, code**
  - Tools and software needed to access and manipulate data
- **Standards**
  - Standards to be applied to scientific data and metadata
- **Data preservation, access, timelines**
  - Repository to be used, persistent unique identifier, and when/ how long data will be available
- **Access, distribution, reuse considerations**
  - Description of factors for data access, distribution, or reuse
- **Oversight of data management and sharing**
  - Plan compliance will be monitored/ managed and by whom

NIH Program staff will assess DMS Plans, but not part of overall impact score

See [Writing a Data Management & Sharing Plan](#) for details

- Is a free web-based form managed by the [California Digital Library](#)
- Used by institutions around the world (82,235 users), updated based on user feedback: view example public plans
- Provides guidance from NIH and your institution, suggested answers, and additional resources for each part of the plan
- Also has templates for other federal and private funders (i.e. NSF)
- Machine actionable DMP - allows for automated exchange of information about your research by connecting to ORCID iD (useful for funded projects, tracking over time)
- <https://dmptool.org> Sign in with SSO; UNC has an institutional account

# Rigor and Reproducibility

- Thank you!
- UNC Chapel Hill is the standard for developing rigor and reproducibility statements within the ABRF core community. The ORT R&R template has been posted on the ABRF website and published in a recent JBT manuscript
- If you are a new core director, are updating your website, or need to add a rigor and reproducibility statement to your website, please visit:
  - <https://www.med.unc.edu/corefacilities/rrt/>

- Thank you for all who attended, presented, and assisted in making this meeting successful!
- If you enjoyed MAD SSci, please consider attending again next year (Rutgers University, NJ) or attending the national ABRF meeting ( Minneapolis, MN)
  - Expenses for conferences can be built into your rates, ORT/CFAC can also provide funding for conference attendance.
  - Have an idea for future sessions? [oc@maddsci.abrf.org](mailto:oc@maddsci.abrf.org)

# Planning for Instrumentation Needs and Lifecycles

- “*Knowledge is power*”
  - What is the expected lifecycle of your equipment? Will it need replacement sooner due to heavy usage, pace of technological development, etc.?
- Develop a plan
  - CFAC **Emergency** funds should not be the planned financial avenue when you know your instrumentation is reaching or has surpassed its end of life.
  - CFAC Fall/Spring RFAs can be an avenue to replace aging instrumentation.
  - Cost-shares, either for grants or with other internal entities, can be submitted alongside RFAs, or submitted at other strategic timepoints to coordinate with cost-share requests that go through the OVCR.
  - NCBC, NIH S10 or R24, NSF, DoD DURIP, etc.
  - **NCBC IIG grant deadline is October 3, 2023**
- Communicate early
  - Let ORT or your CFAC representative know what your needs are or will be if you plan to use a CFAC funding mechanism (even matching funds).

# Instrumentation Grant Panel

**October 12, 2023, 12-1:30pm**

- Roundtable discussion with your peer core directors who have successfully submitted grant applications as well as a PI who has participated in the NIH S10 study sections. They will present their own grants as case studies and discuss tips and tricks, timelines, how to secure matching funds, and more
  - Ashutosh Tripathy, Pablo Ariel, Josh Chen, Brandie Ehrmann, Paul Maddox
- In person meeting - lunch will be provided. Open to core directors and stakeholders across all schools. RSVPs will be required - keep an eye out for a meeting invitation.
- Please attend if you are planning or considering submitting an instrumentation grant (NCBC, NIH, NSF, DoD)

# Peer Mentoring

- Several core directors expressed interest in peer mentoring and networking events
- We will be hosting a small-group session 11/13/2023 to brainstorm what this would look like. If you would like to participate in the organization and structure of this mentorship opportunity please reach out to Kara Clissold ([kara\\_clissold@med.unc.edu](mailto:kara_clissold@med.unc.edu))
- Aim to begin events in January 2024

# Acknowledgment Tracking Update

- Chris presented a poster outlining our comprehensive search strategy at the 2022 ABRF meeting in Boston
- We are working on a sustainable, AI-database driven tool for acknowledgment tracking with a reporting feature that could be used campus-wide. In the meantime, we are continuing to collect historic acknowledgment data for our cores and the search terms we discover will be used to drive the AI software. Thank you to those who have helped us amass this data.
- If you need assistance with acknowledgment tracking for grant reporting or other needs please reach out to Kara ([kara\\_clissold@med.unc.edu](mailto:kara_clissold@med.unc.edu))

# Acknowledgment Tracking Data

## Publications Identified for 64 core facilities

# Worldwide Impact of Core Facilities

- Google Scholar searches for 64 core facilities yielded 2,453 acknowledgments of those cores in student dissertations and theses at institutions around the world to date.

Customized Google Map. 190 pins correspond to a unique institution where a student dissertation or thesis acknowledged a UNC-Chapel Hill core facility.

**SCHOOL OF  
MEDICINE**

# Research Core Development

Meghan Kraft, Interim Director of Research Core Strategy

Ben Wright, Director of Research Core Development

# FY2023 Highlights

---

110 official recharge centers; approx. 125 total research cores

---

Total Revenue Generated: \$43 million (\$41 million FY2022)

---

Research Supported:

---

700 labs on campus

---

40 external universities

---

40 external businesses

---

# FY2023 Revenue Metrics

FY2023 Total Revenue: \$43 million

■ Internal Revenue ■ External Revenue

## Sponsored Research

\$7.6 million generated in F&A

2,152 projects charged

Total impact to research: \$1.6B\*

# Research Core Development Outreach

## 58 core tours CY2023

- Thank you!

## UNC Symposium for Research Administrators

- Thursday September 27 - Friday September 28
- <https://symposium.web.unc.edu/>
- RCD Updates and Initiatives
- Rate Reviews (OSP CAC and RCD)
- Contracts with External Customers
- iLab: General Info, Tips, and Tricks

# Rate Reviews

OSP Cost Analysis and Compliance Team performs reviews

Reviews completed since October 2022: 63

Median time to complete rate review: 92 days

Rate review status information available in Tableau "Totals" dashboard

Templates and FAQs available on RCD webpage

# Financial Reporting

Financial reporting tools available via Tableau

Now available! Access for over 100 cores and 300 users

<https://tableau.unc.edu/#/site/oris/projects/1282>

For questions, technical issues, or to request access changes, please contact [RCD@unc.edu](mailto:RCD@unc.edu)

Link, training session recording, and FAQ document located on RCD Webpage

Rate Review status available via “Cores – Totals” dashboard

## Core Financial Totals

Last Updated: 7/12/2023

Overall balance, revenue, and expense information. Also includes rate review status.

### Balance Information

Comparison of cumulative balance of previous year and current year in the current accounting period

Total Previous FY	Total Current FY	Total Amount Change	Total % Change	Total Cumulative Balance
-\$78,481	-\$10,133	\$68,348	▲ 87.09%	-\$10,133

### Revenue vs Expenses

Per FY

### Balance by Month

# UNC Limited Submissions Process Flow Chart – adapted!

# *UNC Limited Submissions Process Flow Chart*

## *– adapted!*

- Long cycle internal competitions on NSF, NIH, DoD/DURIPs etc., to help centralize equipment planning and resource alignment
  - Purchase & Acquisition timelines
  - Space upfits & Construction
  - Installation
  - Integration with current lifecycles
  - Cost-share request alignment
- Builds flexibility for strategic equipment requests based on leadership need
- Neutral-party moderated stakeholder peer-review

# Limited Submissions Management System (LAMSES)

## THE KICKSTART TEAM

## MISSION

Support IP-based startup formation, business development & growth by:

- Providing coaching and mentoring,
- Early-stage funding,
- Connection with key service providers, management, & investors and
- Incubation space

01

### Educate

- KickStart Workshops
- Customer Discovery & SBIR/STTR workshops
- 1:1 Meetings with researchers

02

### Assess

- Business case support
- Entrepreneurs-in-Residence
- Advisory panels
- IP and Market Landscape services
- I-Corps Program

03

### Launch

- Streamlined incorporation
- Connection to service providers
- Venture Catalyst Fellows program (MBAs and PhD students)
- KVS PoC Awards

04

### Grow

- Intros to potential management
- SBIR Grant application support
- 7,500 SF Wet-lab space
- Showcase & networking events
- Board set-up advice & connections

05

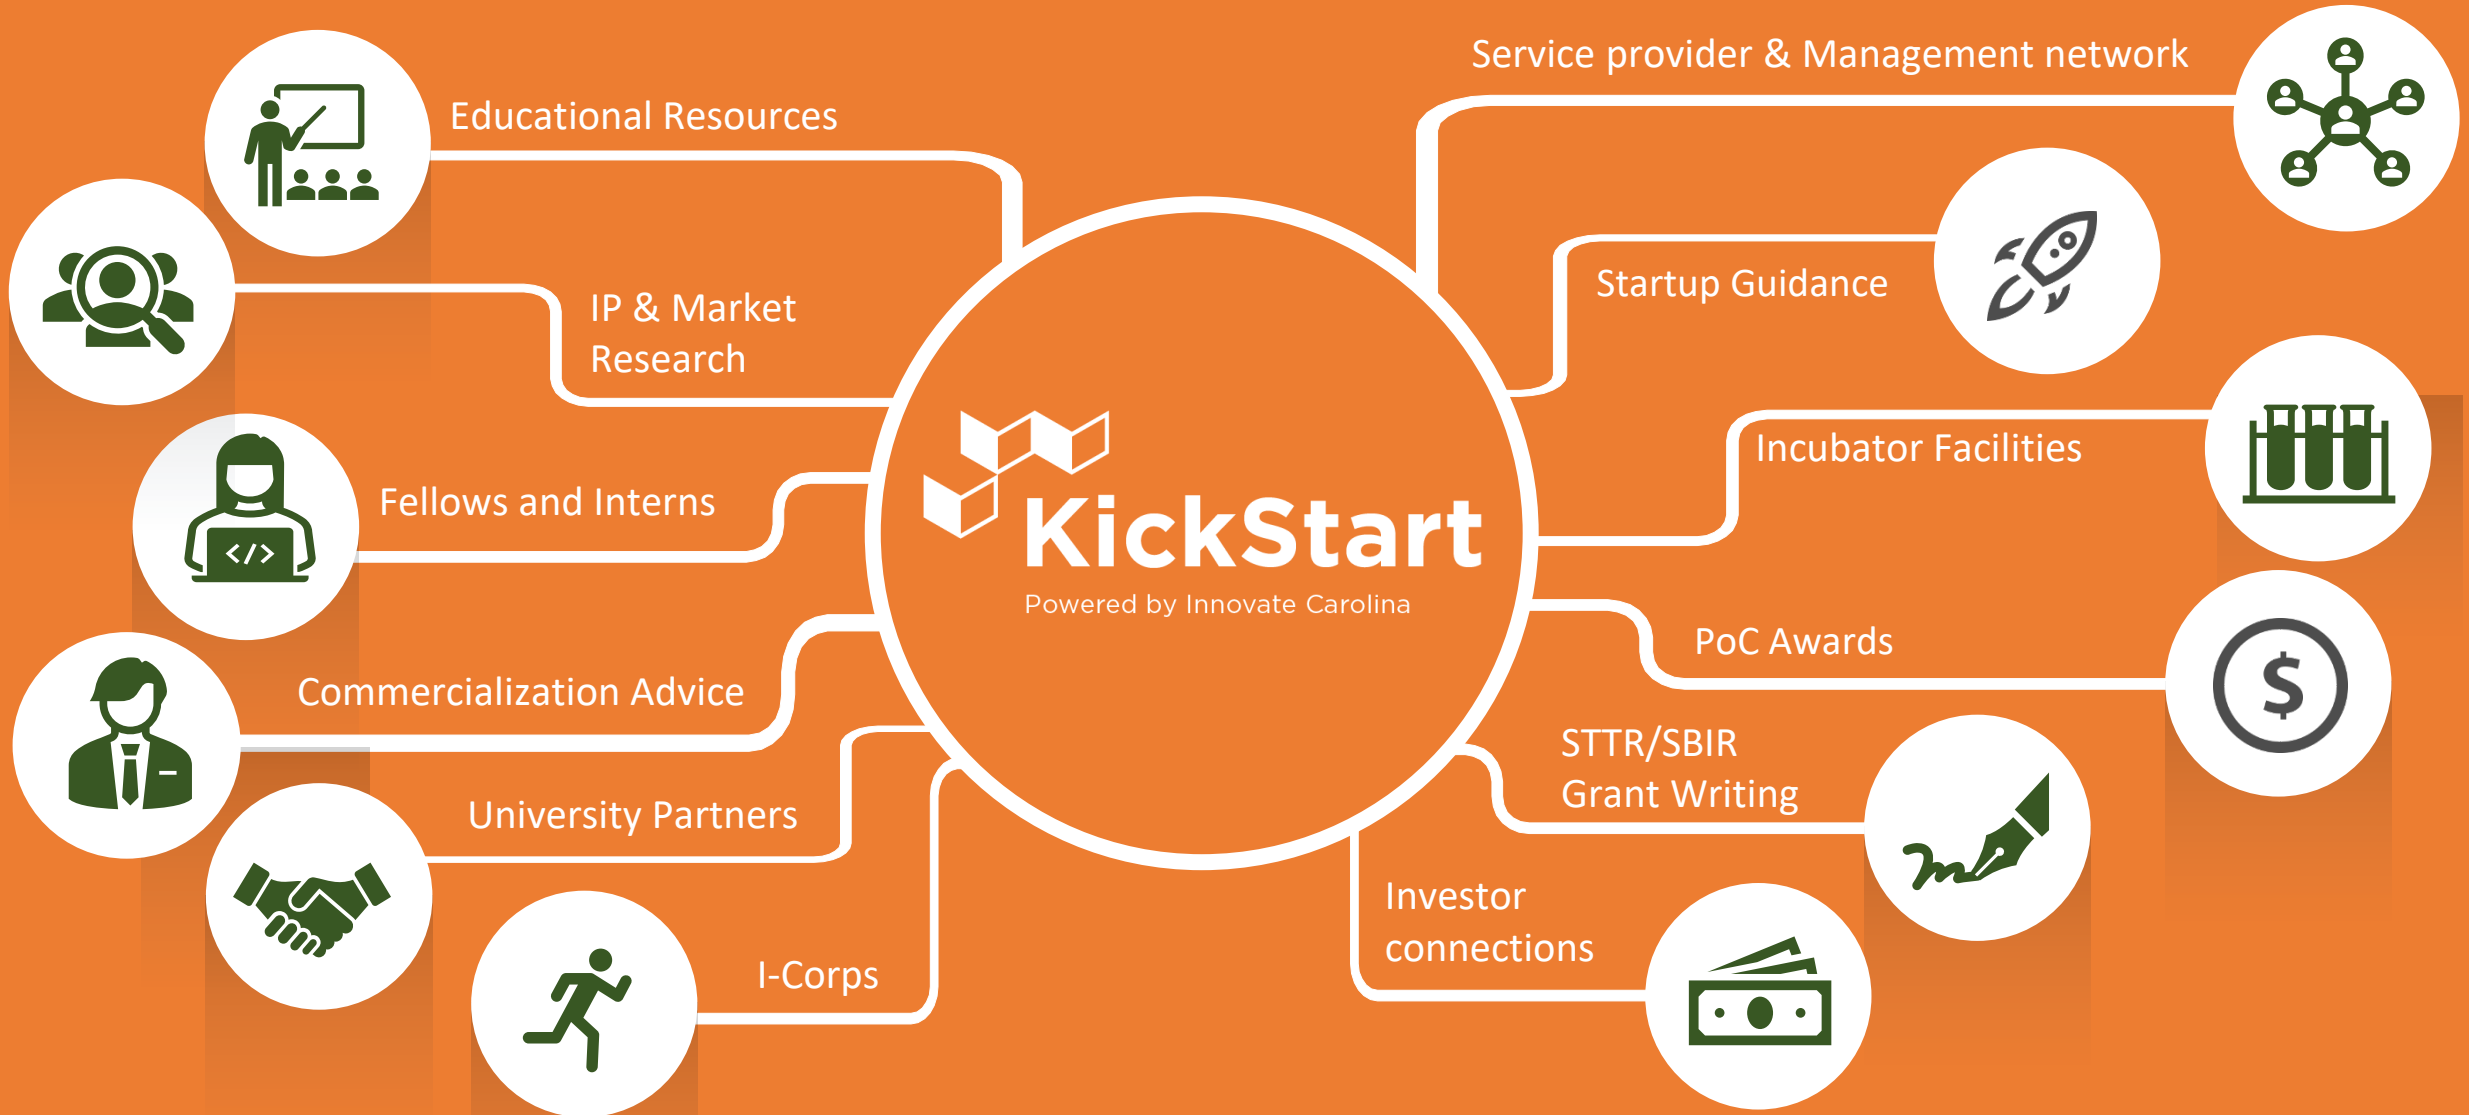

### Graduate

- VC funding
- Partnerships
- IPO

Funding Raised

Funding Raised: \$7.6B

- SBIR/STTR Grants: \$244M

Revenues & employees

2022 Employees: 2,171  
2022 Revenues: \$277M

# KICKSTART FUNDING FOR STARTUPS

## KICKSTART AWARDS (SINCE 2010)

\$2.8M in KVS awards to 75 UNC IP-based Startups

- Up to \$100K per award
- For technology commercialization /business development
- Helps de-risk technologies and makes them more competitive for dilutive and non-dilutive funding

## GRANT WRITING SUPPORT SERVICES (SINCE 2017)

Support from Grant writing firms:

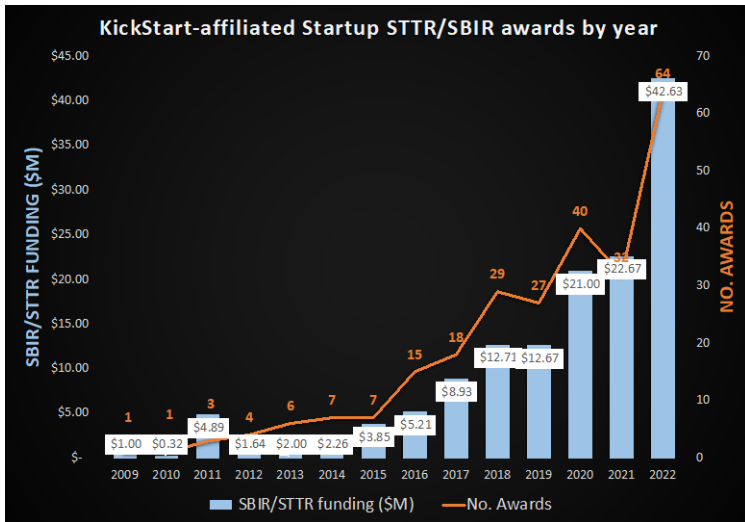

- Intelispark
- Grant Engine
- Eva Garland Consulting
- Inspiralia

## MICROSTART AWARDS

- Up to \$5k
- Work with service providers

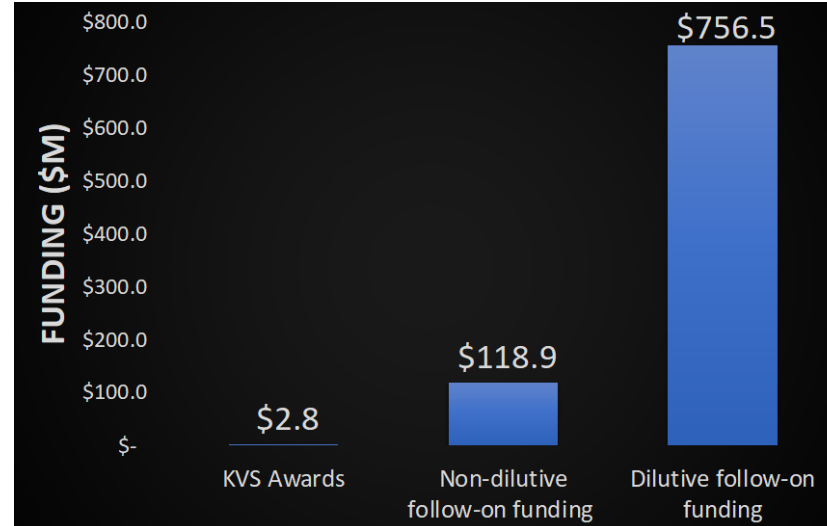

# PROGRAM IMPACT

## STTR/SBIR Growth

Our startups have received over **>\$140M** STTR/SBIR funding since KickStart programmatic support was established in 2009

## KVS Award Leverage

Up to \$100K Award (since 2009)  
 69 companies supported (75 awards)  
**43X** leverage non-dilutive funding  
**274X** leverage dilutive funding

## Grant writing support impact

**\$8.9M** funded proposals since 2018  
**\$21.6M** additional SBIR/STTR raised by companies receiving grant writing support from KickStart.

## Located in the Genome Sciences Building:

*Key location with proximity to UNC research & core labs*

**KICKSTART ACCELERATOR: A FLEXIBLE SPACE FOR EARLY-STAGE STARTUPS**  
(well suited for PI STTR/SBIRs)

## **Current Companies**

AccuNovo Biotechnologies Inc.

AnelleO, Inc.

BlueSky Polymers

Delgen Biosciences

LED RadioFluidics

NeuroGT, Inc.

Perotech Inc.

Syzygy Optics LLC

## **Accelerator Graduates**

Enzerna Biosciences

Triangle Biotechnology Inc.

Vast Therapeutics

Codetta Bio Inc.

Irex Pharma LLC

Enfuego Therapeutics

Epigenos Biosciences, Inc.

**KICKSTART  
ACCELERATOR  
COMPANIES**

## Accelerator Lab Overview

- 7,500 square-foot facility in UNC's Genome Science Building.
- The lab opened in late 2019.
- 8 companies currently occupy accelerator space.
- 7 companies have successfully graduated to larger lab space in the RTP area.
- 4–5 additional UNC faculty led startups have expressed interest and are in process of applying for lab space.
- 9 full (21') or 18 half (10.5') benches available for UNC IP-based startups (2 full benches currently rented).
- 6 private lab spaces available for lease (2 currently rented).
- Currently at ca. 35% occupancy and expect to be at ca. 70% occupancy in Q1 2023.

# 7,500 SF lab space for UNC IP-based startups

Powered by Innovate Carolina

 Shared lab space/equipment (ca. 1600 sf)

 Private lab space (ca. 1000 sf)

 Open Wet Lab Space (ca. 2800 sf)

 Cubicle Space / Hot Desks (ca. 850 sf)

 KickStart Admin Space (ca. 1100 sf)

 Shared conference rooms (ca. 300 sf)

 Keycard Access

# KickStart Accelerator Shared Equipment

## KickStart Accelerator Shared Laboratory Equipment

### Tissue Culture Room

- VWR® Air Jacketed CO2 Incubator (x2)
- REDISHIP Purifier Logic+ Class II A2 Biosafety Cabinets (x2)
- Fisherbrand™ Isotemp™ General Purpose Deluxe Water Baths (x2)
- Olympus CK30 Culture Microscope, Inverted with Phase Contrast
- Nikon TMS Culture Microscope, Inverted with Phase Contrast
- Invitrogen™ Countess™ II Automated Cell Counter
- BD Accuri Flow Cytometer

### General-Use Shared Lab Equipment

- Applied Biosystems MiniAmp Plus Thermal Cycler
- Beckman Avanti High Performance refrigerated benchtop centrifuge
- Beckman Coulter Microfuge
- Binder 4 of Laboratory Convection Oven
- BioTek™ Synergy™ H1 Hybrid Multi-Mode Monochromator Fluorescence Microplate Readers
- Buchi Rotavapor w/Vacuum Pump
- CurranTaylor Panasonic 1000 Watt Commercial Microwave Oven
- Eppendorf / New Brunswick Scientific Incubated Floor Model Shaker
- Fisher Scientific Dry Bath Incubator
- Fisher Scientific Isotemp 205 water bath
- Fisher Scientific Water Bath
- Fisherbrand Entry Level Research Grade Inverted Microscope (x2)
- Fisherbrand Variable Speed Mini Vortex Mixer
- HERA VIOS 160I CO2 CU Incubator
- Invitrogen Evos Flويد Cell Imaging System w/ fixed blue, green, and red LED lights
- Invitrogen Evos XL Core brightfield microscope
- Invitrogen Hula Sample Mixer
- Invitrogen iBright Imaging System
- Invitrogen Mini Gel Tank and Blot Module Set
- Invitrogen PowerEase Touch 350W Power Supply
- Invitrogen Qubit Flex Quantitation
- Invitrogen Life Technologies E-Gel™ Imager System with UV Light Base
- LabNet Prism Mini Centrifuge
- MaxyGene II Thermal Cycler (x2)
- Quant Studio 3 QPCR System
- Sartorius Entris II Balance
- Sartorius Quintix Semi-Micro Balance
- Thermo Scientific Sorvall ST8R Microcentrifuge
- Thermo Scientific Thermal Mixer w 1.5 mL block
- Thermo Scientific™ NanoDrop™ One Microvolume UV-Vis Spectrophotometer
- VWR 3500 Standard Orbital Shaker
- VWR BALANCE B-SERIES ANAL .1MG .2MG 210G
- VWR Benchtop Meter Kits B10P Benchtop pH Meter with pH Probe
- VWR Heater Block Analog 2 120V
- VWR Personal Low Temperature Incubator
- VWR P-Series Portable Balances (x2)
- VWR Standard Hot Plate Stirrers
- VWR STIRRER LOW PROF 15-1500RPM 100-240V
- VWR Tube Rotator
- VWR Variable Speed Rocker
